ABOUT

PROFEN

EXPERIENCE
WITH SUCCESS

In 1994, Frank P. Crivello, Phoenix Investors' Chairman & Founder, and David Marks, President and CEO, created Phoenix Investors as an investment management company. Throughout the 1990s, Phoenix focused on single-tenant arbitrage opportunities available across the country. To this end, Phoenix exploited various market inefficiencies that existed including information inefficiencies, differences in credit perceptions of unrated regional and national tenants, and innovative Wall Street financings, the combination of which produced above market returns.

From 2002 to the beginning of the Great Recession in 2007, our management team concluded that prevailing real estate opportunities and trends did not meet its disciplined risk/reward analysis. Phoenix suspended new acquisitions of commercial property and instead focused on improving its existing portfolio.

Since the Great Recession, Phoenix has aggressively used its experience to source, identify, and harvest unprecedented commercial real estate opportunities. Currently, our focus is on maximizing underappreciated asset classes including Class B and C industrial properties, portfolio and REIT dispositions, and creatively working with corporations, banks, and other institutions on underperforming asset dispositions.

Looking forward, Phoenix will continue applying its disciplined investment strategy to commercial real estate opportunities while implementing new technologies and adding resources.

To successfully identify and execute opportunities in a dynamic and changing marketplace, Phoenix has built a talented team of professionals across all levels of its business, providing them with cutting-edge technology tools and superior benefits including a highly acclaimed wellness program. Joseph and Anthony Crivello, both of whom grew up around Phoenix, are part of its Advisory Board and reflect the next generation of leadership for Phoenix. The Phoenix team has been critical to our achievements to date and will lead Phoenix to new heights in future decades.

PHOENIX INVESTORS FULL LOGOTYPE

The logo of Phoenix Investors is composed of a symbol evoking the image of a phoenix combined with the company name and a slogan. The logo serves as a representation of Phoenix Investors' corporate culture and acts as the basis for the rest of the company's branding elements.

The typeface used in the logo has been selected to further reinforce the core ideas

of the corporation's philosophy. Mrs Eaves and its variant typefaces add a sophisticated air to the logotype while maintaining an approachable and attractive human quality.

The logo uses a spectrum of bright oranges and prominent diagonal lines as a powerful visual statement. The lines converge at a central point, creating an eye-catching element.

LOGO CONSTRUCTION AND CLEARSPACE

It is important to keep the corporate logo separate from other elements in order to ensure that it retains visual impact. Pursuant to this requirement, a clearspace has been established. This clearspace dictates the distance the logo and logo title should have reserved for it.

Furthermore, the logo and type are considered to be two elements of a singular whole, and should never be separated or have their relationship altered, except in certain approved cases.

CLEAR SPACE

Full Logo

Definition

TEXT HIERARCHY

In all visual media, hierarchy is a central design element. Utilizing different hierarchical scales with text is an essential tool in communicating information. In most cases, the largest text will be laid out in such a way so that users

can scan the page and still gather the most important information. Here are some of the more common elements of text hierarchy used in design work for Phoenix Investors.
